Metatiedot

Nimeke: Video pedagogy

Tekijä: Länsitie Janne; Stevenson Blair; Männistö Riku; Karjalainen Tommi; Karjalainen Asko

Aihe, asiasanat: adult education, education, teacher, teacher training, vocational training, universities of applied sciences, video

Tiivistelmä: The short film is an introduction to the concept of video pedagogy. The five categories of video pedagogy further elaborate how videos can be used as a part of instruction and learning process.

Most pedagogical videos represent more than one category. A video itself doesn't necessarily define the category – the ways in which the video is used as a part of pedagogical script are more defining factors.

What five categories did you find?

Did you agree with the categories, or are more or less of those?
